**On this the 100th anniversary of IBM:**

IBM unions worldwide formed the IBM Global Union Alliance at Nyon, Switzerland, May 6th, 2011.

The partners in this alliance pledge to work together with the aim of improving working conditions of employees worldwide and to engage IBM at a global level thereby increasing our leverage to help individual Unions and employees.

**Global Union Action Day June 14!**

Unions representing and advocating for IBM employees worldwide have come together to celebrate and honor the employees who have made IBM successful and to remind corporate executives that employees are assets not liabilities.

IBM Unions worldwide will be holding specific actions and activities on June 14th. Please visit the Alliance@IBM web site [www.allianceibm.org](http://www.allianceibm.org) For updated information.

Please see other side of this flyer for more information.
